The author here confuses perception and reality. She cleaned her house ferociously but not her body, or not very. More books news.

The devastating bubonic plague epidemic the Black Death which started in the I foolishly neglect to take notes while reading this book, so I don't have precise dates, hilarious anecdotes and strange factoids to share. Most fascinating to me was the difference in attitudes between keeping a body clean and keeping a room or building clean, and just the different ways that people have thought about this stuff and how they lived.
